

## Super Glue Corporation News: January 2014

## No Clamps, No Problem

We came across this novel use for Super Glue on [www.doityourself.com](http://www.doityourself.com). Although our [Original Super Glue](#) liquid isn't designed to bond with porous surfaces, like some wood, it can save you a lot of hassle when mounting two pieces of wood together.

## Super Glue for Stained Glass Repair

During the holidays, houses of worship from all religious backgrounds will be full of people. Many of these visitors will be fortunate enough to take in the beauty of decorative stained glass. So when we came across this handy do-it-yourself fix for cracks in stained glass, we thought it couldn't come at a more appropriate time. Although repairing broken stained glass usually takes a master hand, virtually anyone can patch a simple crack using our [Original Super Glue](#)! Find out how you can apply these fixes [here](#).

## A Felt Tree + HandiTAK = Easy Holiday Fun for the Kids

Looking for a great Christmas decorating idea that the kids can get in on? We recently came across this blog from a mom that wanted to give her toddler a chance to decorate so he wouldn't "fiddle" with the real tree. The result is a fun crafts project that children of any age are sure to enjoy using our [HandiTAK reusable adhesive](#). Read the [full article](#) and [share with us](#) your own projects using Super Glue products.

## Wargamers Recommend ZAP Over Other Super Glues for Miniatures!!

Check out this great product comparison video from [YouTube](#) via Four Realms of Chaos. [ZAP-A-GAP](#) comes out the clear winner for use, by war gamers, with miniatures!! [Two notes to the video: [Zap Zip-Kicker](#) has not been banned in California, they just required an additional warning label on the product, AND Zap-A-Gap, in a smaller bottle, is now readily available at [Michael's](#) and most other hobby stores!]
