Super Glue Adds Shine & Protection to Woodworking Projects

We've often heard from woodworkers that [super glue](#) can be used as a great finish. Check out this picture to see what a difference a couple of coats of super glue and some sandpaper can make to an unfinished piece of wood. Imagine a cool knife handle or piece of wood sculpture with this sheen! The super glue not only brightens up the finish, but it soaks into the porous wood adding some internal strength as well.

Photo Pendants

These darling photo pendants are a great summer craft idea! All you need to get started are the glass tiles, [super glue](#), diamond glaze, photos, bails, and chains. You will find the detailed instructions by going directly to [Ginger Snap Crafts](#). BTW: We love the super glue photo on the blog — kudos to the author for that shout out!
