## Super Glue Corporation News: September 2012

### Back To School!

It's "Back To School" time and who, we ask, doesn't get excited about a new box of crayons?

This art idea from [Pinterest](#) makes a new box of crayons even more exciting!! All it takes is a canvas, a box of crayons, some [super glue](#), a blow drier and poof! You have a new piece of art for that classroom wall, child's bedroom or even dorm room!

replacement for pushpins, tacks and nails; you can adhere posters and pictures to any surfaces without damage. Simply knead the Handi-Tak into a ball so that it gets tacky and poof! it sticks anywhere. It has great holding power! Great for dorm rooms, offices, apartments and any place you want to hang things and still be able to remove them whenever you want without having to repair the wall.

## How Do I Prepare for Hurricane Isaac, Earthquakes & More?

“Be Informed, Make A Plan, Build A Kit and Get Involved” is the way to prepare for natural disasters according to the [Ready.Gov](#) website. Great advice!

It is hard to predict what you will need in times when natural disasters strike, but we can learn from previous disasters and others who have gone through these things before us.
