The Sweetest Valentine Gift You Can Give!

We have a fabulous Valentine's gift idea for ALL of the loved ones in your life – your spouse, boyfriend, parents, kids, neighbors, teachers, colleagues or anyone!! It has all of the necessary ingredients: It's homemade with love, and everyone you might want to give a Valentine to will be impressed by both your thoughtfulness, and your tasty gift! This idea takes TIME not MONEY to create!

Dermatologists Recommend Super Glue

We've been hearing it from our customers for years, but now even dermatologists are recommending it: Super Glue Can Help With Dry Skin!

According to an article, by Kim Painter, in [USA Today](#), there are "five ways to save your hands from winter" according to "American Academy of Dermatology members Barbara Reed of Denver and Thomas Rohrer of Chestnut Hill, Mass."

It's In The Details

Impressed is an understatement! We couldn't believe the research and work involved in creating the amazing miniature illumination described in this [Lighting The Castle](#) blogpost.

Celebrating Serendipity!

This is the video, about Dr. Harry S. Coover's discovery of super glue, that was shown at the National Science and Technology Medals Foundation Gala November 2010, in Washington D.C. It was amazing how many of the medal winners cited serendipity as playing a large role in their discovery. We think humility must play a role as well or as Louis Pasteur said, "Chance favours the prepared mind."
